# WANDA XI – INTERNATIONAL EXECUTIVE PROGRAM

- From the Wanda Grounds street leagues, we will host the Wanda XI group onsite in Russia
- During the Group Stage matches, our guests will aim to showcase their Chinese footballing culture to the world
- While onsite, they will be hosted as movers and shakers, aiming to give them access to football governing bodies and connections within the Global football world
- Upon arrival home, they will be the future in Chinese football, aiming to one day be playing at the FWC representing their home country.

# PROMOTIONAL GUEST PROFILE – INTERNATIONAL

- As part of Wanda's Global #breakground program, we will host guests throughout the tournament that have been handpicked from their social content sharing activity
- Guests will be chosen in the Group Stage matches and hosted in the later knockout rounds
- Experiences will include Wanda sponsor Sole & Exclusive access, as well as full hospitality program hosting
- Their content captured on the ground in Russia will be amplified by Wanda, and set to solidify them as a influencers once they return to China

## EMPLOYEE INCENTIVE PROGRAM – INTERNATIONAL

- As part of Wanda's initiatives to participate in government lead programs intended to create a greater work life balance throughout China, employees will be able to win the chance to travel to Russia.
- These programs will be focused around the group stage matches, with either one Host City or multiple matches targeted depending on the length of stay within Russia.
- They will participate in a full hosted program, as well as Wanda's FIFA post match bench tour S&E
- Octagon will also look to work with additional sponsor teams for additional exclusive programming opportunities.

# OCTAGON HOSPITALITY KPI'S

Area	Element	Why?	KPI - Proposed	How we can achieve this?	Comments
Tickets	Ticket Collection Desks	Check if MD-1 ticket collection systems works / is appropriate for the ticket only guests (primarily Russia ticket only) to aid planning for FWC	95% of all assigned tickets collected by the authorized collector / guests within the allocated and advertised ticket collection hours. 100% of all non-collected tickets followed up within 4 hours of ticket desk closing	Ensuring our communications are clear and directed to the ticket holder Hours are appropriate for the collection Venue collection is easy to locate and convenient	Ticket Desk operates MD-1, so timings allow for 2nd opportunity for the guest to collect the ticket
Guest Communications	Guest App	Downloads and usage of the beta version of the app in 2017 will help us improve the alpha version in 2018 Provide understanding to which functions are used / popular Understand if this is an appropriate method of communications within hospitality	70% of all hosted guests to download the app during the tournament	Ensure app is communicated via our current communication pieces (GMS / itineraries) Ensure our staff are aware and confident in using the app so they are able to suggest / recommend to guests to download Promote to guests benefits of using the app Showcase the app by always having it 'used' in front of guests / seen by guests	Failure to download app by guests could also help to provide insights (lack of smartphone, no memory on current phone, not tech influenced)
Guest Communications	Guest Feedback	Important qualitative insights directly from the guests help us review our performance and service offering	50% response rate from all hosted guests within 2 weeks of their program concluding	Ensure survey is easy to complete (limit on questions, using a simple format and available in multiple languages) Ensure survey is accessible in an online format and hardcopy Remind guests to complete when advising departure details, day prior to departure Remind guests to complete when sending thank you emails, following conclusion of event	Usual response rate is 40%, looking for a 10% increase
Fan ID	Fan ID	Fan ID is a new initiative and essential for access to the stadium. We need to ensure that the reminder of the Fan ID is just important as the ticket itself	100% of all hosted guests arrive at the stadium with their Fan ID in their possession	Ensure Fan ID is communicated via our communication pieces (GMS / itineraries / App) Ensure our staff are aware, are wearing their own on MD Ensure guests are reminded prior to leaving for stadium, on the transport prior to leaving and again as guests disembark the transport	
Guest Numbers	Program Numbers	Ensuring all guests arrive as anticipated Check around pre-travel communications Check Market communications from Market / Guests relating to travel information	90% of guests attend their program at booked / confirmed by Octagon Remaining 10% of no-show followed up within 12 hours of intended arrival day	Clear and consistent communications between markets and Octagon to ensure market is booking correct travel dates for their guests Ensure clear and precise documentation of timings on all pre-travel communications (GMS, App) Ensure program content is attractive and guests are excited to attend	As hospitality package are subject to 100% cancellation fees its important these assets / service are utilized to avoid wastage There will always be a natural attrition due to unforeseen circumstance that some guests will cancel at late notice
Transport	Transport Timing	Ahead of FWC vendor testing is critical for their re-appointment for 2018. Testing and tracking each transport movement this will help us plan for FWC if we need to allow more (or less) time for the transport to arrive at the designated point.	90% of all transfers, booked more than 7 days prior to the event, arrive at the time specified and in the vehicle type booked by Octagon	Clear communications and bookings with our appointed transport provider Cross checking orders before submission Cross checking our timings and requirements when the vendor returns the booking confirmation advise	Last minute bookings / changes not included in the metric due to uncontrollable elements Requesting the service starts on time (too many factors to apply to KPI around timely arrival at destination - traffic / president road closures / security checks / guest request stops)
